Pass Thrus

Package Receiver

Package Receiver accommodates larger items for transfer. It has an inter-locking mechanism to allow only one door at a time to open. Front door can be locked from rear side with special locking bar. Closer is furnished on front door.

Package Receiver mounts into wall up to 11.5" thick. Adjustable frame on interior side mounts against wall in field. Exterior flange has rain cap along top edge.

Finish options:

- Stainless steel door with prime painted housing
- Prime painted doors and housing

Wall opening size:

15.5" wide x 15.5" high

Clear inside dimension:

14.75" wide x 13.125" high x 15.5" deep

Level I or III bullet resistant

Package Receiver with Vision Panel PR-VP

It is the same as standard Package Receiver above except vision panel in rear door enables operator to see contents inside unit.

Construction:

Prime painted steel housing and stainless steel door

Vision panel:

- Level I—1.25" acrylic
- or Level III—1.25" Lexgard

Clear inside dimension:

14.375" wide x 13.125" high x 14.1875" deep

Wall opening size:

15.5" wide x 15.5" high

Clear Package Receiver

Clear Package Receiver is for interior use only. Clear acrylic housing is fastened together with special aluminum extrusions. Clear acrylic doors allow plain view of contents. Bottom is made of plastic laminated plywood and bullet resistant fiberglass. Unit mounts on counter top. Special interlocking mechanism allows only one door at a time to open.

Clear inside dimension:

13.3025" wide x 12.5" high x 13.375" deep

Level I or III bullet resistant

Exterior Lazy Susan LSW-CR

Exterior Lazy Susan is equipped with weatherstrip for outdoor use eliminating direct entry of outside air into the building. This unit has stainless steel sides and inner drum with a clear acrylic window for viewing contents. Top and bottom are bullet resistant plastic. Only one moving part, the inner drum, rotates with smooth movement. Crank handle on top turns the drum 180 degrees. Lazy Susan locks with a drop bolt. In locked position the stainless steel drum is turned to customer for maximum security. Unit mounts on counter top or in wall opening.

Construction:

- Stainless steel sides and inner drum
- Clear acrylic window

Level I bullet resistant

Model	Width	Height	Depth
LSW-CR 1512	15"	12"	11.625"
LSW-CR 1820	18"	20"	13.875"
LSW-CR 2418	24"	18"	18"
LSW-CR 2618	26"	18"	19.625"

Energy Pal Pass Thru (Non-Bullet Resistant) Patented

Creative's Energy Pal is ideally suited for drive-up service. The pivoting shelf with Lexan doors turns outward to customer and inward to operator. Shelf has coin scoop and bill clip. Energy Pal prevents direct entry of outside air into the building. Energy Pal mounts on window ledge or wall opening for drive-up service. It locks with the adjacent Lexan windows forming an insulated barrier between outside and inside air. Unit is weatherstripped.

Energy Pal has 13" inside clear height

Construction:

- Sides: Aluminum with clear or dark bronze anodized finish
- Top and bottom: 1" solid plastic
- Shelf: Solid plastic
- Doors: Clear .25" thick Lexan

Pass Thrus

Safti Server Patented

For drive-up or walk-up service, Safti Server provides bullet resistant protection while holding energy loss to a minimum. It allows no direct entry of outside air into the building.

Safti Server has only one moving part (the shelf) which turns both inward and outward to allow access to contents. Shelf extends approximately 15" from face of building when turned to customer.

Safti Server locks with the two adjacent acrylic doors forming an insulated barrier between outside and inside air. Unit mounts on window ledge, in wall opening or on counter top.

It has clear inside height of 14.5". Top, bottom and shelf are bullet resistant plastic. Sides are clear or dark bronze anodized aluminum. Doors are clear 1.25" thick acrylic.

Construction:

Doors: 1.25" acrylic

Top, bottom and shelf: bullet resistant plastic

Sides: clear or dark bronze anodized aluminum

Pass Hopper with Flange

All stainless steel Pass Hopper mounts on counter top, in wall or window opening. Hopper pivots outward for customer access, then in opposite direction for operator access. Only one moving part allows virtually maintenance free service. Pass Hopper is equipped with weatherstrip for exterior use. Standard models provide Level I bullet resistant protection. Level III protection is an extra option.

Pass Hopper is available with stationary exterior flange and loose adjustable flange for rear side on all models.

Construction:
stainless steel

Level I or III bullet resistant

Pass Hopper PHE-1

Pass Hopper can handle a gallon of antifreeze, two liter beverage or bag of coins. Hopper locks with latch.

Pass Hopper PHE-2

Largest pass Hopper provides ample capacity for larger bulky items. Equipped with stainless steel handle and round turn latch.

Pass Hopper PHE-3

Pass Hopper can accommodate a three liter beverage or gallon of milk.

Pass Thrus

Swivel-Thru No. 1 Combination Pass Thru and Deal Tray Patented

Stainless steel Swivel-Thru sets in transaction area of counter, centered beneath the bullet resistant window. For normal currency transactions the deal tray (lid) is locked in horizontal position by a turn latch incorporated in the knob. For larger items the deal tray is tilted upward to the lower edge of window to uncover the open drum below. After larger item is placed in open drum, deal tray is rotated in opposite direction by operator for access to drum contents. The Swivel-Thru is bullet resistant in all positions. It has the appearance of an ordinary deal tray when mounted in place, not detracting from aesthetics of counter. Unit is large enough to accommodate items such as an eight pack of drinks or large bag of coins.

Construction:

Stainless steel

Overall Size:

16" wide x 18" deep x 10" high

Drawers

Deal Drawers

Deal Drawer recesses in counter top along front to achieve flush appearance. Glazing (by others) sets above the flat hood portion of drawer. Full width handle across rear of drawer along with smooth solid bearing slides allows easy operation. Lexan lid stays closed when drawer is extended.

Construction:

Stainless steel

Cash Drawer 1618

Cash Drawer has stainless steel housing with bullet resistant plastic drawer. Unit mounts in counter top along front edge. Glazing (by others) should set above the flat hood portion of drawer. As drawer slides out the stainless steel front panel pivots upward. Movement is controlled by the full width handle across rear of drawer. Lexan lid stays closed when drawer is extended. This unit is designed for long life as there are no slides to wear out.

Construction:

Housing: stainless steel

Drawer: bullet resistant plastic

Counter top opening size:

14.5" wide x 17.125" deep x 5.75" high

Drawer extension:

9"

Inside dimension of drawer:

12" wide x 14.625" deep x 3.625" high

Transaction Drawer 1924-DD

1924-DD Transaction Drawer is bullet resistant and weather resistant. It is well suited for drive-up service. Drawer moves on heavy duty ball bearing slides and the front doors open as drawer is extended. The drawer locks automatically when closed. Lexan lid permits clear view inside drawer and remains closed when drawer is open to customer. Bill clip and coin pad are furnished inside drawer to hold currency. Drawer can be mounted in wall 1.0625" up to 8.625" thick.

Construction:

Drawer and housing: bullet resistant plastic

Doors, hood and flange: stainless steel

Inside drawer dimensions:

14.5" wide x 20" deep x 12" high

Drawer extension:

15.5"

Wall opening size:

19.25" wide x 16.5" high

Level I bullet resistant

Drawers

A Series Transaction Drawers

A Series Transaction Drawers are weather resistant as well as bullet resistant. The front stainless steel panel pivots upward as drawer moves outward. Drawer movement is provided by smooth extension slides. It locks with drop bolt. Lexan lid stays closed as drawer is extended.

Construction:

Drawer unit: aluminum frame, stainless steel hood, bullet resistant plastic
